Here are all the COVID packages that has been submitted Div.

Consolidate this tracker with the one I developed and include the ones that are still with regiment for action

G'day Sgt,

I'm hoping that you might be able to assist us.

We had a record of all COVID VAX -RA packages that we have worked and submitted to Div.

Unfortunately , our records got corrupted and we lost all the names and date of submission of each package.

Does Division have a tracker that has the names of each COVID VAX-RA package ever received from 23d Mar Reg?

If so could you kindly forward us that data so that we may rebuild our internal tracker.

We are anticipating an influx of appeals and wish to better prepare for and manage the streamlining of the packages.

Any assistance you might be able to provide would be greatly appreciated.

Regards,
